

DuPont knew Mr Zampa was at risk

BY MR. MARLIN:

436. Q. When you stated there "working with asbestos", you mean insulations workers only? Do you mean insulation workers and other people who actually had hands on contact with asbestos containing materials? You mean

436. Q. When you stated there "working with asbestos", you mean insulations workers only? Do you mean insulation workers and other people who actually had hands on contact with asbestos containing materials? You mean

463. Q. Prior to your attendance at that conference, had you, or to your knowledge, anyone at Haskell Lab, initiated any kind of program to determine whether or not insulation workers employed by DuPont may be at risk for contacting asbestos related diseases?

PAUL W ROSENBERGER \* SPECIAL EXAMINER \* TORONTO CANADA

G.J. STOPPS - 368 -

A. No. I don't think that we were thinking so much of particular occupations. We were thinking more in terms of anybody who was exposed to asbestos.

464. Q. My question was: Prior to 1964, Doctor, had anyone initiated any kind of program?

A. No, nobody had. But you specifically referred to insulation workers, and there was no program.

465. Q. But there wasn't one for insulation workers or anyone prior to 1964; is that correct?

A. Not to my knowledge, no.
